WAR BRIDE, NEW 'MUM,' EXHIBITED AT SHOW

Many Unique Blooms on View at the Annual Display.

The "War Bride," a new species of chrysanthemum, was presented at the annual "Mum" exhibit of the Depart-ment of Agriculture, which opened yesterday at Fourteenth and B streets north-

west, for one week.

The color and the name of the flower attracted a great deal of attention and the producers' proposal. Bride," is particularly appropriate, for the new flower is colored a deep red. The specimen is a distinct new variety,

the officials say, and can be found no-where else in the world. It has a deli-cate foliage, and is known to flower breeders as seedling No. 129.

The "Earl Kitchener," a large Japanes in two shades of lavender; "Algo-"Mrs. J. Wells," "Mrs. Emma " and "Queen Mary," were among the most popular types shown.

ployes in the hothouse declare that though the larger varieties are the most popular, in many cases the smaller varieties are the most artisic and delicate. All the blooms on exhibition are the product of nine months' work, yet they only serve one week for exhibition pur-

Eight-Hour League Meeting. The final rally of the Wilson Eighthour League will be held tonight at Fifteenth and F streets. Among the speakers will be William F. Gude, William Schaffer, John F. Costello,

Injured Man Laughed When Simple Treatment Was Suggested, but

He Thanked His Comrade Later.

"It was so bad that the leg had turned black," said Mr. Voehl in relating the story, "I told him I would have him out in a week and he laughed at me. But I took him a bottle of Sloan's Liniment, that night he put some on and noticed the ankle felt better. I told him to use it every day, and in three days his ankle was practically well. In four days he was working. He gladly admits that Sloan's Liniment "put him on

SAYS TUMULTY KILLED

Jerseyite Confirms Lodge's Charges.

Gives New Version of Affair.

Special to The Washington Herald.

New York, Oct. 30.—George C. Warren, jr., a well-known resident of Jersey City, one of the Republican candidates for Presidential elector in New Jersey, declares that he is in position to confirm the statement by Senator Lodge regarding the so-called postscript to the usitania note,

Mr. Warren says that he has his information directly from a member of Mr.
Wilson's official family, whose name, for
obvious reasons, he is not at liberty to

The story, as Mr. Warren has it, is that the postscript was not in the form of an addition to the note for transmission to the German government, but in the form of a supplemental instruction to Ambassador Gerard, who was to convey to the German government the informa-tion that the note had been written for American consumption.

Mr. Warren's story is that the man who prevented this instruction being sent to Ambassador Gerard was Joseph P. imulty, secretary to the President. According to Mr. Warren's informant, Mr. Tumulty realized the political danger to his chief of sending such a message, and succeeded in arousing Mr. Burleson to the importance of stopping the telegram. They went to the President and laid the case before him, but the President did not agree with their presenta-Once upon a time word came to Henry
A. Voehl, of Plainfield, N. J., that a
close friend had been injured, and full

LIMIT ON PARKING PRIVILEGE RESENTED

Awards of Emblems to Employes An-Sixty Business Men Protest Against Strength of Raw Article Supports the Fourteenth Street Restrictions.

Company's Claims.

Sixty business men with interests in the vicinity of Fourteenth and New York avenue have filed a protest with the District Commissioners against the parking rule which limits stops of automobiles or other conveyances on the thoroughfares in the neighborhood to fifteen minutes.

Last night Commissioner Louis Brown Jacob B. Ziers, a motorman of the low said the protest had not officially come to his attention, but that when I did the complainants would have a hear-ing. The basis of the complaint is the contention that the regulation virtually limits the amount of a time a man can This is all due to the new order of the stay in an office to transact business to raction company, which awards stars for fifteen minutes. The protestants contend this interferes with their business, Two years ago a hearing was held or

SUGAR MARKET BOOSTS **CUBA CANE DIVIDENDS**

Boston, Oct. 30.—The present extra-ordinary strength in the raw sugar mar-ket, facing as it does the marketing of the biggest crop of beet sugars the coun-try has ever raised, gives considerable support to the claims of those who extry has ever raised, gives considerable support to the claims of those who ex-press confidence that Cuba Cane Sugar will earn \$50 a share during the 1917 year, says the Wall Street Journal.

It is believed that the fiscal twelve months of December 31 will show a bal-ance of \$24 a share for the 500,000 shares of common after taking out the \$2,500,000 preferred dividends and after allowance for the operating expenses during the four months or so that intervene between the completion of one crop and the start

During the 1916 season Cuba Cane i nderstood to have produced about 3,200, 000 bags of sugar. Since the 1916 crop was made Cuba Cane has purchased the Stewart Sugar Company with an output last crop of 490,000 bags. This year Stewart is good for at least 500,000 bags, and it is estimated that the eighteen plantations collectively will reach a production of 4,000,000 bags. On this assumption and taking a 2 1-4-cent cost of production, the calculation of Cuba Cane profits during the 1917 crop at four different prices for raw works out as follows:

\$41,600,000 \$35,200,000 \$28,800,000 28,186,800 31,700,800 25,300,800

63,40 50,60 76,20 Quotations Abnormal.

It may very properly be objected that any such figure as \$80 a share earned for the common is extravagant and absurd. The current quotations for raws are abnormal, and unless all the signs fail there must be a sharp break in prices between now and the start of the next crop. If raws start at 31-2 cents for the 1917 season there is every reason to ex-pect that they will quickly work up to 4 cents, and as the crop production vol-ume diminishes, to even higher figure. Somewhere between 4 and 4 1-2 cents for its 1917 crop is the average selling price which experts feel Cuba Cane can easonably count upon receiving.
All this is of course predicated upon a continuance of the war and the existence of just those remarkable world conditions which have made sugar one of the spec-tacular commodities of these extraordi-
